

FARMER'S FIELD It doesn't get more rustic than a venue that used to be a field- literally. In fact, part of the charm resides in the fact that from Farmer's Field, or neighboring Honeypearl Range, you've not only got a beautiful sunset as your backdrop, but a beautiful crop. Cotton, wheat, soybeans- they all make for great (and authentic!) photos. Farmer's Field is located directly behind Heritage Hall and is primarily used for tents for wedding receptions and other events. Its proximity to Heritage Hall means proximity to restrooms, a working kitchen and a climate-controlled area for your guests if they need reprieve from the hot or cold. Recent Weddings & Events Using Farmer's Field
Brittany & Kevin's Wedding June 2010
Denise & Justin's Wedding September 2012
Lily & Chris's Wedding October 2012
